In the Matter of)
)
Amendment of Section 73.202(b) of the) MM Docket No. 96-219
Commission's Rules, FM Table of Allotments,) RM-8881
(Taylor and Temple, Texas))

To: Chief, Allocations Branch

MOTION TO ACCEPT SUPPLEMENTAL ENGINEERING STATEMENT

Stellar Communications, Inc. ("Stellar"), licensee of Station KKIK(FM), Temple, Texas, by counsel, hereby requests that the Commission accept the attached supplemental engineering statement in the above-captioned proceeding. In support of this motion, the following is stated:

The Commission issued a *Notice of Proposed Rulemaking*, DA 96-1774 (released November 1, 1996) ("*NPRM*"), in this proceeding proposing to amend the FM Table of Allotments to reallocate Channel 282C2 from Temple to Taylor, Texas. Stellar filed comments in response to the *NPRM* on December 20, 1996. In doing so, Stellar complied with the Commission's directive in the *NPRM* to provide data regarding the areas and populations that will gain and lose existing service if Channel 282C2 is reallocated to Taylor. See *NPRM*, ¶4. Although the respective dates for filing comments and reply comments have passed, Stellar respectfully requests that the Commission accept the attached supplemental engineering statement in order to correct certain information previously provided to the Commission concerning the number of reception services in the gain and loss areas. As set forth in the attached engineering statement, the area losing service from Station KKIK will

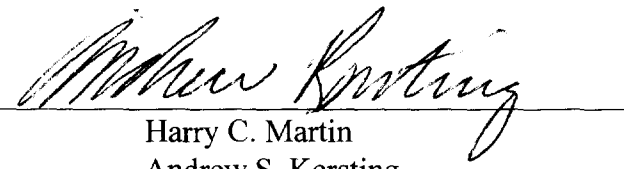

receive service from a minimum of six stations, and all of the gain area will receive service from five or more stations.

WHEREFORE, in light of the foregoing, Stellar Communications, Inc. respectfully requests that the Commission GRANT this motion and ACCEPT the attached Supplement to Engineering Statement.

Respectfully submitted,

STELLAR COMMUNICATIONS, INC.

SUPPLEMENT TO ENGINEERING STATEMENT IN SUPPORT OF
PETITION FOR RULEMAKING
TO CHANGE CITY OF LICENSE OF RADIO STATION KKIK (FM)
FROM TEMPLE, TEXAS TO TAYLOR, TEXAS
MM DOCKET No.: 96-219
JANUARY, 1997

=====

This Firm has been retained by Stellar Communications, Inc., licensee of Radio Station KKIK (FM), Temple, Texas.

This Engineering Statement corrects a typographical error in the second to last paragraph of the Engineering Statement dated December 17, 1996. The first line of the paragraph states:

"The persons residing in the area losing service from Station KKIK receive service from a minimum of **four** stations with most areas receiving service from eight or more stations."

The sentence should state:

"The persons residing in the area losing service from Station KKIK receive service from a minimum of **four FM** stations and **two AM** stations with **all other** areas receiving service from **seven** or more stations."

The third paragraph from the end of the Statement should be revised as follows:

"The community of Taylor will gain its first local fulltime broadcast service. The community presently receives fulltime service from three AM and eight FM stations including Station KKIK. With the relocation of Station KKIK, Taylor will receive a much stronger local signal from Station KKIK for a total of eleven stations. All of the gain area receives service from five or more stations."
